## ***FRIDAY DRAFT EDITION***

- *From time to time, as needed, I will add comments to the Friday Draft edition of the Agenda when there is a potential issue so that council has the needed information...*
- *Mr. DeBord may be present at the meeting to voice his disapproval over having to pay an Origination of Service Deposit. Mr. DeBord is relocating his business. He is in the process of starting new service at his new location and therefore subject to the deposit charge of \$400 for a commercial user. He feels he should be grandfathered in. This has nothing to do with being grandfathered... he is opening service at a new location. If anything, he WAS grandfathered in as long as he had stayed at his current location. (We did not bill him for a deposit when the Ordinance was established.) See Ordinance 1601...*
